

CIABIOMED 2025

I CONFERENCE OF THE SPANISH SOCIETY OF ARTIFICIAL INTELLIGENCE IN BIOMEDICINE

SEVILLE, SPAIN | October 23-24, 2025

BIOMED

Sociedad Española de
Inteligencia Artificial en Biomedicina

CALL FOR SPECIAL TRACKS

IMPORTANT DATES

May 11, 2025

Special tracks: Deadline for sending proposals

May 13, 2025

Special tracks: Notification of acceptance

July 4, 2025

Papers: Deadline for submission

July 31, 2025

Papers: Notification of acceptance

September 14, 2025

Papers: Deadline for camera-ready due

GENERAL CHAIRS

Alejandro Rodríguez González
Universidad Politécnica de Madrid.

Aurelio López Fernández
Universidad de Sevilla

SPECIAL TRACKS CHAIRS

José Alberto Juárez Andrades
Universidad de León

Lucía Prieto Santamaría
Universidad Politécnica de Madrid.

Mónica López Lacort
*Fundación para el Fomento de la
Investigación Sanitaria y Biomédica de la
Comunitat Valenciana.*

The **1st Conference of the Spanish Society of Artificial Intelligence in Biomedicine (CIABIomed)**, to be held on **23 and 24 October 2025 at the Higher Technical School of Computer Engineering of the University of Seville**, invites the research community to submit proposals for the organisation of special tracks. These sessions, which will run in parallel with the general sessions of the conference, aim to provide a focused space for the presentation and discussion of work in specific, emerging or interdisciplinary areas within the field of artificial intelligence applied to biomedicine.

The special sessions should focus on topics that do not directly overlap with the general programme of the conference, but **which provide added value through innovative approaches, complementary perspectives, lines of research in development or relevant methodological debates**. Particular consideration will be given to proposals that promote collaboration between institutions, critical discussion and the projection of future challenges in the ethical, rigorous and responsible use of artificial intelligence in biomedical contexts.

Once the proposal has been accepted, the Organising Committee of the conference will set up a specific information page for each special session on the official website of the CIABIomed 2025 conference. Organisers must provide a **detailed description of the session, a list of topics of interest, the Call for Papers, submission information (which will use the same system and dates as the general call for papers), a list of organisers and the associated scientific committee, as well as any additional relevant information**.

The organisers of each special session will be **responsible for managing the peer review process of the papers submitted to their session**. This includes the selection of qualified reviewers, the supervision of the quality and punctuality of the evaluations and the proposal of decisions of acceptance or rejection. All decisions will be subject to the final approval of the Scientific Committee of the conference. Likewise, the organisers are expected to ensure compliance with ethical standards in the evaluation process and to avoid any possible conflict of interest.

It is compulsory for **at least one of the organisers of the special session to register for the conference, attend in person in Seville and act as chair of the session assigned to them in the programme**. In addition, the organisers must actively promote their special session through institutional channels, social networks, professional contacts and scientific communities, with the aim of attracting a sufficient number of proposals. Please note that sessions that do not reach **a minimum of four accepted papers** may be cancelled or their contributions redistributed in the general sessions of the conference.

SUBMISSION GUIDELINES

Proposal information should be submitted electronically using the following form:

<https://2025.iabiomed.org/form-special-tracks/>

Each proposal should include:

- Special session title.
- Approximate estimate of the number of contributions expected in the special session (minimum 4 contributions).
- Brief biography of the organiser(s) of the special session.
- Draft 'Call for papers' for the special session (dates must be the same as the main conference).
- One or two appropriate journals or follow-up publications: it is possible for special sessions to organise a special issue.
